In any job where you need to extend your tools' useful life, keep them in order, and keep them safe and secure, you need the right tool organization and storage equipment.

In this section of the URREA Tool Catalog you will find tool storage solutions to suit every need, increasing your productivity by putting the right tool in reach every time. Our broad line includes:

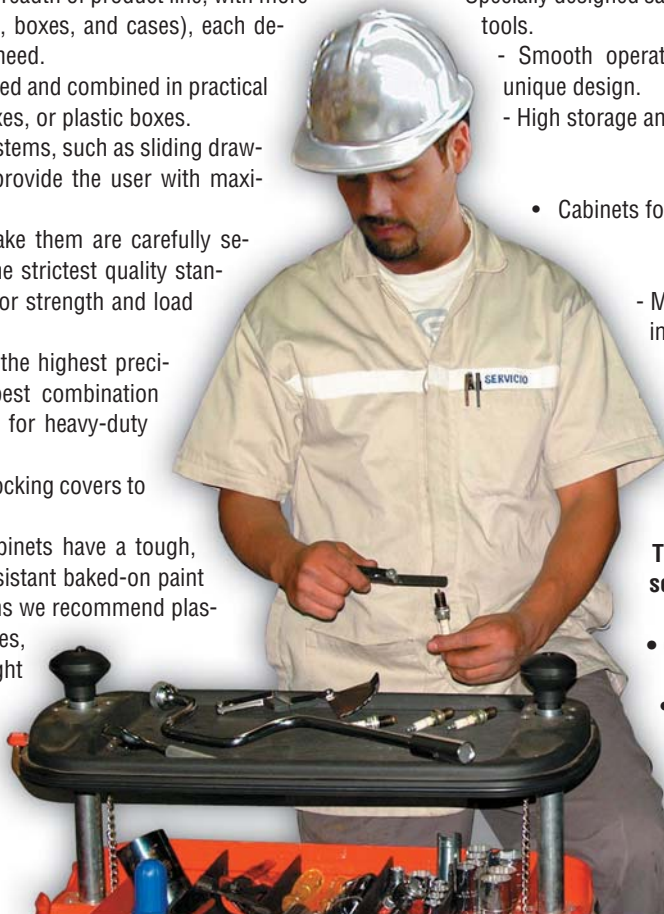

- Mobile and fixed cabinets
- Utility carts
- Metal and plastic boxes
- Tool cases and other organizers

**The principle benefits of having a good tool organization and storage system are:**

- They keep your tools in order, safe and secure.
- They make your work environment more organized, safe, and productive.
- They make it easier to transport your tools.

### The URREA Organization and Storage System

- Offers a wide variety and breadth of product line, with more than 50 options (cabinets, boxes, and cases), each designed to meet a specific need.
- Various designs are grouped and combined in practical sliding drawers, metal boxes, or plastic boxes.
- Their finely engineered systems, such as sliding drawers and locking wheels, provide the user with maximum safety.
- The materials used to make them are carefully selected and comply with the strictest quality standards, giving them superior strength and load capacity.
- They are assembled with the highest precision, to give them the best combination of strength and durability for heavy-duty use.
- Drawers and boxes have locking covers to keep your tools safe.
- All URREA boxes and cabinets have a tough, high-quality, corrosion-resistant baked-on paint finish. For FOD applications we recommend plastic boxes and vinyl cases, with no coatings that might flake off.
- Compliant with American and European domestic and international standards.

- URREA cabinets are available in 3 different versions: URREA Super Duty, URREA Heavy Duty and URREA.

for super-duty use.

for heavy-duty use.

for industrial use.

- Cabinets for super-duty work.

- State-of-the-art smart design.
- Its components make it extremely strong to withstand hard work.
- Equipped with maximum security systems.
- Excellent comfort and maneuverability.

- Cabinets for heavy-duty use.

- Specially designed safety systems to reliably protect your tools.
- Smooth operation of trays and drawers in this unique design.
- High storage and load capacity.

- Cabinets for industrial use.

- Made of high-quality sheet metal, reinforced for extra strength.
- Safety covers.
- Practical sliding drawers with stops make it easier to locate tools in the bottom of the drawer.

**The information presented in this section is organized as follows:**

- Quick selection guide
- Detailed product specifications.
- Safety recommendations.

### Features:

1. These type of cabinets lets you organize and store your tools easily, quickly, and very safely. Because it rolls, you can easily transport your tools and equipment anywhere you need them.
2. URREA Super Duty mobile cabinets have a tough double-wall construction that makes them stronger and prevents structural failure.
3. High load capacity in all versions:
  - a) URREA Super Duty = 1,220 lbs (maximum load)
  - b) URREA Heavy Duty = 500 lbs (maximum load)
  - c) URREA = 242.29 lbs (maximum load)
4. Fabricated with reinforced sheet metal:
  - a) URREA Super Duty (extra-heavy-duty use) 18-gauge sheet metal on sides, top, base, and drawers.
  - b) URREA Heavy Duty (heavy-duty service): 18-gauge sheet metal on sides, top, base, and drawers.
  - c) URREA (general use): 20-gauge sheet metal on sides, top, base, and drawers.
5. All of our cabinets have sliding drawer systems for superior safety and comfort. a) URREA Super Duty and URREA Heavy Duty: Cabinets are equipped with smooth-action professional laminated rails designed to support heavy loads.
6. Fully extendable sliding drawers for quick and easy access to tools stored in the bottom.
7. Drawers have T-shaped front design, making them 25% stronger.
8. Drawers have high load capacity for storing and organizing a wide range of tools. a) URREA Super Duty: 50-lb load per drawer. b) URREA Heavy Duty: 50-lb load per drawer. c) URREA: 25-lb load per drawer.
9. Rubber wheels for safe, smooth movement of the cabinet. a) URREA Super Duty: 5" x 2" rubber wheels mounted on 14-gauge tracks for higher load capacity. b) URREA Heavy Duty: 4.48" x 1.49" rubber wheels. c) URREA: 4" x 2".
10. Excellent maneuverability, because one pair of wheels is fixed while the other two wheels can rotate 360 degrees independently.
11. Maximum safety provided by the braking system on the rotating wheels.
12. The paint coating, specially formulated to protect and last under the most extreme conditions, is itself applied using a special process that prevents environmental contamination, making it a top-quality product in every aspect.
13. Safety closure holds drawers and top closed.
14. Reversible key locking system is secure and easy to operate.
15. Metal safety bar is hidden in the cabinet's structure.
16. Tubular handle makes the cabinet easy to guide when it is moved.
17. Some models also include a storage area for large-sized tools or equipment.

- Top box and mobile cabinet shipped in the same box.
- 4-drawer top box and 2-drawer mobile cabinet with large storage area.
- Locks on box and mobile cabinet for greater security.
- Adjustable dividers in the mobile cabinet drawers.
- The box bolts to the mobile cabinet for greater safety.
- Plastic 4" x 2" wheels offer maneuverability on rough floors.
- Large storage area in the base of the mobile cabinet for loose parts and/or equipment.
- 25-lb storage capacity per drawer
- 20-gauge sheet metal on sides, top, base, and drawers.

#### Features:

- 1.- Combining fixed with mobile cabinets lets you extend or enlarge your organization system and protect your tools as your needs increase.
- 2.- Modular fit with dimensions to match other organization and storage systems such as mobile cabinets, with no need for special installation.
- 3.- Made of high-gauge sheet metal for greater strength and durability.
- 4.- Specially formulated paint coating protects the cabinet's appearance and prevents corrosion.
- 5.- Smooth-action professional laminated rails designed to support heavy loads.
- 6.- Reinforced aluminum side handles.
- 7.- High-security locks.
- 8.- All of our cabinets have a sliding drawer system for extra safety and ease of operation.
  - a)URREA Super Duty and URREA Heavy Duty cabinets are equipped with smooth-action professional laminated rails designed to support heavy loads.
- 9.- Fully extendable sliding drawers for quick and easy access to tools stored in the bottom.
- 10.-Drawers have T-shaped front design, making them 25% stronger.

**UTILITY CARTS**

**9982**  
**SMALL FOLDING CART SUPER DUTY**  
**27" X 15" X 86"**

| CODE | LENGTH |     | WIDTH |     | HEIGHT |     | SHEET METAL GAUGE | Scales icon | lbs  |
|------|--------|-----|-------|-----|--------|-----|-------------------|-------------|------|
|      | in     | mm  | in    | mm  | in     | mm  |                   |             |      |
| 9982 | 27"    | 700 | 15"   | 400 | 86"    | 900 | 20                |             | 44.5 |

- Exclusive easy-to-store design folds down to a height of 19 inches.
- Tough roomy tray holds tools from the upper compartments when the cart is folded.
- Chrome-plated tubular rails for better appearance and sliding action of top trays.

• **Safety:** On the highest shelf of small utility cart 9982, there is a safety catch which (if engaged) keeps the trays from falling.

• **Movement:** Wheels are made of rubber with a double ball bearing system and guards to protect against dust and mop strings. Two wheels can swivel.

• **Efficiency:** The wheels that swivel have foot-activated locks for quicker action on just one contact surface.

Small utility cart 9982 has two posts located on the ends of its body for easier movement; together with its smooth, solid wheel action, they make the cart quick and easy to move. When small utility cart 9982 is unfolded, you can access its multiple trays and the drawer located at the bottom of the cart, giving you the best mobile organization. You can also adjust the space between them.

**100% functional:** Small utility cart 9982 has a tray-based system that holds and organizes tools. With this system, you can use 1, 2, or all 3 trays at once. When they're closed, releasing the main lock lets you lift the first tray, and the reinforced chain system will lift the other trays (depending on the height). This gives you a mobile organizer whose main advantage is putting the tool you need in the place where you need to use it. URREA's small utility cart 9982 goes wherever you do.

**Code 9982**

URREA Super Duty folding utility cart with 69 x 36 x 67 cm tray

An indispensable part of every shop, offering versatility for all types of jobs such as: transporting, organizing, and using it like a work table. The feature that makes it really special is its folding system, which lets you store it in a very small space when you don't need it; definitely an important tool for installing in your workplace.

**Features:**

- 1.- These carts are very versatile: they can transport tools, pieces of machinery, or parts to be repaired or replaced, and can also be used as a work table.
- 2.- The top cover and center shelf (tray type) keep objects from sliding and falling off while the cart is moving.
- 3.- Tubular handle makes the cart easy to handle.
- 4.- Wheel braking system for complete safety with any task.
- 5.- The paint coating, specially formulated to protect and last under the most extreme conditions, is itself applied using a special process that prevents environmental contamination, making it a top-quality product in every aspect.

**PLASTIC BOXES**

**Features:**

1. Very useful for transporting selected tools from the main set, for a particular repair or assembly task.
2. Large interior space for tool storage, organization and protection.
3. Strong PVC plastic handle.
4. Tough plastic-coated snap latch(es).
5. Interior tool holding tray.
6. Strong but very lightweight rigid plastic structure.
7. The top cover of one model includes a section for holding saw disks.
8. The paint coating, specially formulated to protect and last under the most extreme conditions, is itself applied using a special process that prevents environmental contamination, making it a top-quality product in every aspect.

- "Front foot" design stabilizes box when drawers are opened.
- Large comfortable center handle and molded-in grips on sides.
- Storage pockets in cover to hold small parts while working on projects.
- Dual heavy-duty rust-resistant steel latches for total security.
- Shell of heavy-duty high impact polypropylene resins with molded-in color that will not dent or mar other surfaces.
- Generous top storage area.
- Three durable steel drawers with full-extension slides that lock when lid is closed.

## ORGANIZATION AND STORAGE SAFETY RECOMMENDATIONS

Never use tool boxes as benches or steps.

Never open more than one drawer at a time if they contain tools.

Make sure the tool box's latch is secured before moving the box.

Never use tool boxes as supports for striking or drilling objects.

Never exceed drawer capacities.

Never pull a mobile cabinet, always push to move it, and make sure that the floor underneath you is not slippery or wet from a spill.

Make sure that the brakes are applied after any movement of a mobile cabinet.

Never move a cabinet if it has parts or tools on top of it.

Make sure that all sliding shelves and drawers in the cabinet are closed before moving it.
